Secure Spending

Spree is a preloaded debit card, which means the cardholder can only spend the available cleared funds on their account. Each time the card is read, it is checked electronically through the MasterCard Prepaid system. This means the preloaded balance cannot be exceeded, and any negative balance or fraud risk sits with P&MM.

Retail Partners

Spree offers additional rewards to cardholders who shop with our retail partners, either online or in the High Street. Offering between 0.5 and 1.5% rebate on purchases made using Spree, partners include some of the UK's major high street retailers.

Communication

Spree can be campaign, or company branded, with your logo on the card or, for a larger audience, you can have a bespoke card design. The card is supported by a secure website through which you can: -

- check balances and transactions
- see which retailers offer a cash back bonus
- review rebate earned on transactions
- contact customer services
- review frequently asked questions (FAQs)
- keep updated on campaign communications with a news and information page
